

Integrated Sexual Health Service

The summer of 2022 promises to be very different to the past couple of years but some things don't change much!

Taking care and staying safe by using condoms is still the best way to reduce your risk of acquiring an STI or passing one on.

But if you need us, then find out more info by typing "Calderdale sexual Health" in any internet search engine to see what we do or call us.

Calderdale Service; 01422 261370

It's not only the
temperature rising,
STI's are too.
Stay safe
over summer
